Five Minutes for a Happy Body

五分鐘讓身體更舒服

Do you sit in front of a computer or a phone for hours? Many teenagers do, and then their necks and backs hurt. Here are four easy exercises. You can do them in your classroom or at home in just five minutes.

First, sit up straight and slowly turn your head to the left, then to the right. Do this five times to relax your neck. Second, lift your shoulders up to your ears, hold for three seconds, and let them drop. Third, stand up and raise both arms high. Then bend at the waist and try to touch your toes with your fingers. Keep your knees straight, but do not push too hard.

Finally, stand on one foot and move your ankle in small circles. Change feet and do it again. These exercises are simple, but they are good for your whole body. Try them every day, and your back will thank you!
