How to Make Your Room Shine in One Hour

如何在一小時內讓房間煥然一新

Is your room always a mess? Don't worry. Here is an easy plan. You can clean your room in one hour, and it is not boring at all. First, open the window and play your favorite music. Then put all the dirty clothes in a basket. You can wash them later.

Second, sweep the floor from the door to the corner. Don't forget the space under the bed. Next, wash the desk with a wet towel. If a drawer is broken, ask your dad to fix it. My brother tried to repair his chair by himself, and now it has only three legs!

Finally, it is time to decorate. You can design a poster for the wall, or build a small shelf for your books. Put a plant near the window. Now look around. Your room is clean, bright, and new. Do this every Saturday, and your mom will be very happy.
