Students Pick Their Favorite Subject

學生票選最愛的科目

Taipei, October 20. Last week, Green Hill Junior High School asked 600 students a simple question: What is your favorite subject? The results came out yesterday, and they surprised many teachers. The winner was not math or English. It was PE!

Over 200 students chose PE. "I love running and playing basketball with my classmates," said Jack Lin, a student in grade eight. Science was the second choice. Many students said they like doing experiments in chemistry and biology. Music and art came next. History and geography got fewer votes. "There are too many names and dates to remember," one girl said.

The principal, Ms. Chen, was happy with the results. She said the school will add one more PE class each week. "A healthy body makes a smart mind," she said. However, she also hopes students will give math a chance. "Every subject is a friend," she added. "You just need time to know it."
