Mr. Huang's Magic English Class

黃老師的魔法英文課

Many students in Class 8-2 used to be afraid of English. They could not spell long words, and they did not understand the teacher. Then Mr. Huang came. He is a short man with a big smile, and he never punishes anyone for a wrong answer.

In his class, students practice speaking every day. First, Mr. Huang says a sentence, and the students repeat it. He shows them how to pronounce each sound slowly. Then he asks a question, and everyone has to answer. If a student does not understand, he explains it again in a different way. He also tells them to underline the key words in every reading.

Before a test, Mr. Huang helps the class review the lessons with games. Students learn new words by singing and drawing. Now most of them pass the test easily. "I used to fail every quiz," says Tina. "Now English is my favorite subject." Mr. Huang says the secret is simple: practice, listen, and never give up.
