Swimming with Sea Turtles

與海龜共游

July 20, Sunny. Today my family and I went to Xiaoliuqiu. It is a small island near Pingtung. In the morning, we put on masks and went into the sea. The water was clear and blue. Soon I saw a big sea turtle under me! It moved its tail slowly and ate sea grass. Small fish swam around it. A crab hid under a rock, and a shrimp with long legs sat next to it.

In the afternoon, we walked on a path by the shore. There were many insects. A butterfly with orange wings landed on my hat. Ants carried food in a long line. A snail climbed up a wet leaf. A mosquito bit my arm, and it became red. My little brother was afraid of a spider on a tree. Dad said, "Don't worry. It won't bite you."

At night, we sat by the sea and listened to the waves. Dad told us a story about a dolphin. Many years ago, a dolphin saved a fisherman near this island. I don't know if the story is true. But I hope I can see a dolphin or a whale someday. What a wonderful day!
