My Honest Review of a Camping Kit

一組露營套件的誠實評測

Last month I bought the "Mountain Buddy Camping Kit" online for NT$1,990, and several readers have asked whether it is worth the money. After two weekends at Wuling Farm, here is my honest review.

First, the good news. The tent poles are made of steel instead of cheap plastic, so they did not bend in the strong wind on the first night. The nylon ropes are thick, and the metal stakes went into the hard ground without a problem. I also liked the small lantern, which runs on a battery and gives enough light to read by. The kit comes with a leather pouch for scissors, a can opener, and a tiny saw. All of these are real tools, not toys.

Now the bad news. The sleeping pad is only one layer thick, so I could feel every log and stone under my back. The torch stopped working on the second day because a wire inside had come loose. The wrapping around the tent was a thin plastic bag that tore before I even reached the campsite, and the label on the box says "waterproof," but the tent floor was wet after a light rain. The instruction booklet is half in Japanese, and the English notes in the margin are too small to read without a torch, which, as I said, was broken.

My verdict: this kit is good for beginners who camp two or three times a year, but serious campers will replace half of its stuff within a season. If you buy it, bring your own sleeping pad and a roll of string for repairs. And keep the box; the plastic bags inside make great junk bags for packing up your trash. Four stars for the poles, two for the rest.

文法與句型 Grammar

S + be + too + adj. + to + V

「太……而不能……」。文中 the English notes ... are too small to read 表示字太小而無法閱讀。注意 to 後面的動詞不再加受詞，因為主詞就是受詞。

The box is too heavy to carry.

這個箱子太重，搬不動。

S＋V＋whether＋S＋V（whether 引導的名詞子句）

whether 意為「是否」，引導名詞子句當動詞的受詞。文中 asked whether it is worth the money 表示「問它是否值得」。

I wonder whether the shop is open today.

我想知道那家店今天是否有開。
